Skills

- Wordpress
- React
- Flutter
- Firebase
- ExpressJs
- MySQL
- HTML
- CSS
- Javascript
- Typescript
- Angular
- NodeJs

Strength

- Excellent Communication
- Leadership
- Critical thinking
- Problem Solving
- Accessibility

Work Experience

Full-Stack Developer | Cleanmeter Systems | Part-time
Jun 2023 - Present | Lagos, Nigeria

- Developed and maintained web applications using Next.js 13, ensuring high performance and responsiveness for users.
- Implemented GraphQL for efficient data fetching and manipulation, enhancing the scalability and flexibility of our applications.
- Leveraged Python and FastAPI to build robust backend services, delivering secure and fast API endpoints for client-server communication.
- Utilized Flask framework to create microservices and RESTful APIs, enabling seamless integration between various components of our software ecosystem.
- Collaborated with cross-functional teams to design, develop, and deploy full-stack solutions, ensuring alignment with project requirements and business objectives.

Full-Stack Developer | Greenbii Technologies
Dec 2020 - Mar 2023 | Lagos, Nigeria

- Responsible for developing new user-facing features, determining the structure and design of Greenbii web pages using Angular, Bootstrap & Typescript.
- Built reusable codes, troubleshoot interface software and debug application codes.
- Utilized asynchronous methods to boost page loading speed.
- Enhanced application efficiency.

Front-End Developer | HashRemind Technologies
Dec 2018 - Feb 2020 | Lagos, Nigeria

- Developed new user-facing features and crafted the design and structure of HashRemind Mobile apps using Flutter and Dart.
- Constructed reusable code, resolved interface software issues, and debugged application code.
- Implemented backend functionality using Firebase, integrated third-party APIs, and optimized app performance for a seamless user experience.
- Collaborated with cross-functional teams to ensure compatibility across various platforms and devices, delivering high-quality Flutter applications.
